Mechanical Construction
An EMCOR Company

When you need service, let Central Mechanical play a central role.

A wholly owned subsidiary of EMCOR Group, Inc., Central Mechanical Construction is one of the Midwest's premier mechanical contractors.

With more than 40 years of experience, we've become a familiar, trusted, and dependable advisor to some of the region's most prestigious commercial, government, healthcare, institutional, and industrial clients.

In addition to our expert design/build and design/assist capabilities, we install a wide range of superior quality heating, ventilation, air conditioning, plumbing, piping, ductwork, and utilities systems. And once we've installed them, our service team is the perfect choice to maintain them, ensuring the dependable operation needed for consistently comfortable and productive environments.

What can we do for you?

Highly trained and highly skilled, our service technicians have the broad experience and in-depth expertise required to keep your facility — including its critical systems — operating efficiently at today's high-performance levels. To ensure high-quality support, we supply our technicians with leading-edge service tools, while maintaining an extensive in-house inventory and a fully computerized fabrication facility. And since we're brand neutral, we can keep your equipment and systems in peak operating condition, regardless of model or manufacturer. The result is a comprehensive array of expert mechanical maintenance, and testing.

Our services include:

- Air & water balancing
- Backflow prevention testing
- Boiler maintenance & service
- State-of-the-art CAD/CAM design & drafting capability
- Certified backflow preventer service
- Certified medical gas installations
- Certified welding
- Commissioning
- Energy monitoring & conservation
- Equipment analysis
- Fully computerized fabrication
- Plumbing, piping, sheet metal
- Factory-certified start-up services
- HVAC system & controls installations & retrofits
- Plumbing service
- Preventive maintenance
- Thermal scanning

Comfortable, productive environments, high-performance facilities

To help you select the approach best suited to your requirements, we tailor our service agreements to meet your facility and budget needs. Whether you choose preventive maintenance, as-needed service, turnkey retrofitting, and/or 24/7/365 emergency response, you can be sure our team will give you the creative solutions and customized care necessary for consistently dependable operation from startup to the end of your facility's lifecycle. And while we're maximizing productivity, you'll have the peace of mind you need, so you can concentrate on your core business without doubts, worries, or downtime.

Add to all of this EMCOR's financial strength and worldwide knowledge transfer network, and you have a single-source service provider, capable of maintaining your high-performance mechanical systems the way you want . . . the way you need, no matter how exacting your standards or rigid your specifications.

Central Mechanical is passionate about safety and quality.

Our ZERO Accident Program (ZAP) has led to safety performance that's 5-to-10 times better than the national average. And our quality assurance program enables us to maintain the industry's highest quality standards on every project.
