Mechanical Construction
An EMCOR Company

High-performance mechanical solutions

Central to your Goals

We're here for you.

Your environments *may be complex,* but choosing a mission-critical partner *couldn't be easier.*

Central Mechanical is Kansas' best-known source for end-to-end mechanical systems and services. We've built a name for ourselves, a name that's now synonymous with value and reliability.

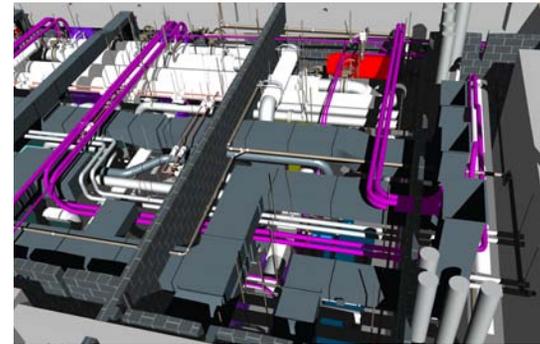

Energy efficiency? Smoother operations? Greater productivity? Higher profitability? We've been there, we do that. We've built a 50-year reputation on helping clients achieve unheard-of efficiencies, and maintain a sharp competitive edge. Here's a sample of how:

→ **Start right: Pre-construction services**
Design, value engineering, budgeting, estimating, scheduling — the right start makes all the difference. We can consult and guide you through every real-world scenario.

→ **Energy Management/LEED professionals**
Sustainability and accountability are here to stay. Our LEED-accredited experts will open your eyes to newer, smarter ways to use and conserve energy, while reducing costs throughout your entire facility.

→ **The people behind the promise**
State-of-the-art technical services, project management know-how, and 200+ skilled workers — 40 of whom have earned the distinction of "master craftsman".

→ **Custom fabrication facility**
One of the largest in the Midwest, staffed with talented draftsmen and 3D/CAD designers and professionals. Expect accurate prefabrication, time-efficient installation and on-budget completions.

→ **BIM (Building Information Management)**
Unprecedented before/during/after control of the life of any facility. Identify costly constructability issues before you ever break ground, THEN explore design alternatives.

→ **Dedicated service, of course**
Who better to service these mission-critical systems than the people who design and install them? We offer 24/7 emergency service, facilities services and routine maintenance of your HVAC and plumbing systems.

→ Our Services Include:

- Mechanical Services**
 - » Ductwork
 - » HVAC
 - » Industrial & Process Piping
 - » Plumbing
 - » Utility Services
- Facilities Services**
 - » 24/7 Emergency Service
 - » Inspections
 - » Planned & Preventive Maintenance
- Energy Management**
- Additional Services**
 - » Design/Build
 - » BIM & 3D/CAD
 - » Preconstruction Services
 - Budgeting Assistance & Cost Evaluation
 - Equipment Selection
 - Constructability Review
 - Scheduling
 - Value Engineering Analysis

→ Markets Served:

- » Commercial
- » Education
- » Entertainment/Hospitality
- » Healthcare
- » Public/Government
- » Manufacturing/Industrial

→ All backed by EMCOR

We're part of EMCOR Group, a financially strong Fortune 500® company with unmatched bonding capabilities, an award-winning, industry-leading safety program, and large-scale purchasing power. Add our full range of powerful capabilities, and you have the best mechanical solution possible.

How can Central be there for you?

You have goals. We have solutions. Let's get together to discuss how to optimize your next construction or facility project. We can help from start to finish, keeping your facilities running reliably, profitably and energy-efficiently.

Mechanical Construction
An EMCOR Company

Central Mechanical Construction Co., Inc. (CMCC)
631 Pecan Circle, P.O. Box 1063
Manhattan, KS 66505
T 785.537.2437 F 785.537.2491

A long-time passion for safety and quality

EMCOR's Be There for Life/ZERO Accident Program (ZAP) has helped us achieve safety performance five to ten times better than the national average. EMCOR has also reduced the total recordable incident rate (TRIR) by 46%, causing CNA Insurance Company to recognize EMCOR for both safety program design and performance.

Taking KidSafety to the Streets™

Central Mechanical is proud to serve the community through its work with the National Center for Missing & Exploited Children. By prominently displaying missing children's posters on our company and personal vehicles, and by responding quickly when a child is reported missing, we help recover missing children and promote child safety.
