Special Attention for Special Projects. Even When It's Fast-Tracked.

As one of the Midwest's premier full-service mechanical contractors, Central Mechanical Construction (Central Mechanical) offers a firm foundation in heating, ventilation, air conditioning, plumbing, piping, ductwork, utilities, fire and smoke damper, and handyman services.

With 50+ years of experience working on commercial, government, institutional, and industrial projects, Central Mechanical's team of qualified professionals is able to satisfy even the most rigorous quality standards—while still meeting high-pressure deadlines and controlling tight budgets. From large fast-tracked projects to small retrofit projects, Central Mechanical has the resources and experience to make each client's special project a success.

Expert. Efficient. And Experienced in Special Projects.

The Special Projects Division at Central Mechanical provides the professional technical assistance required to complete projects that are limited in scope or demand specialized skills. Regardless of a project's size or complexity, Central Mechanical's knowledgeable and experienced professionals can design, manage, and complete the job expertly, efficiently, and economically.

Special projects may involve:

- » Chilled/hot water systems
- » Computer room/data center systems
- » Design-build/design-assist
- » Equipment retrofits
- » HVAC systems
- » Plumbing systems
- » Process-piping systems
- » Refrigeration systems
- » Stainless-steel piping and ductwork
- » Tenant renovations
- » Ultra-high-purity piping
